Education

Dr Sri Sri Sri Shivakumar Mahaswamy College of Engineering

Dec 2022 – Jun 2026

B.E. in Computer Science and Engineering - CGPA: 8.77 /10.00

Bengaluru, Karnataka

Relevant Coursework

- OOP (Java)
- DBMS
- Software Engineering
- Web Technologies

Experience

Tap Edtech Pvt Ltd

Feb 2026 – May 2026

Java Full Stack Development Intern

Bengaluru, Karnataka

- Contributed to **2 full-stack Java web applications** using **Java, JSP, Servlets, JDBC, MySQL, MVC, DAO pattern, HTML, CSS, and JavaScript**, covering frontend, backend, and database development.
- Created **Myntra Demo**, an e-commerce application using **MVC architecture** with a **26-table MySQL schema** supporting products, cart, orders, and checkout workflows.

Zidio Development

Jul 2026 – Aug 2026

Full Stack Development Intern

Remote

- Contributed to **KEYSTONE**, a full-stack field service management system using **Java, Spring Boot, React, MySQL, REST APIs, Hibernate, JPA, Spring Security, and JWT**, supporting **4 user roles**.
- Implemented secure role-based workflows for **4 user roles** – Manager, Dispatcher, Technician, and Customer – covering work order management, technician assignment, service tracking, inventory management, and notifications.

Projects

E-commerce – Myntra Demo Online Shopping Platform | [GitHub](#)

Mar 2026 - Apr 2026

- Engineered a full-stack e-commerce web application using **Java, JSP, Servlets, JDBC, and MySQL** across **45 Servlet controllers**.
- Delivered a **26-table relational MySQL database schema** to manage users, products, cart, orders, and checkout.
- Structured the application using **MVC, service, and DAO architecture** with **13 service implementations** and **13 JDBC DAO implementations**, securing user credentials with **bcrypt password hashing**.

Tap Foods – Food Delivery Web Application | [GitHub](#)

Apr 2026 - May 2026

- Built a full-stack food delivery web application using **Java, JSP, Servlets, JDBC, and MySQL** across **10 JSP screens** and **14 Servlet controllers**.
- Modeled an end-to-end **restaurant ordering workflow** covering menu browsing, cart management, checkout, order placement, confirmation, and order history.
- Designed **6 DAO interfaces and implementations** using **JDBC prepared statements** to manage users, restaurants, menus, orders, and order items.

KEYSTONE – Field Service Management System | [GitHub](#)

Jul 2026 - Aug 2026

- Developed a full-stack **Field Service Management System** using **Java, Spring Boot, React, MySQL, REST APIs, Hibernate/JPA, Spring Security, and JWT**, supporting **4 user roles**.
- Configured role-based workflows for **4 user roles** – Manager, Dispatcher, Technician, and Customer – covering work-order creation, technician assignment, service tracking, inventory management, and notifications.
- Deployed the application on **Render** using a managed **MySQL database** and cloud-based media storage for persistent profile images.

Technical Skills

Languages: Java, JavaScript, SQL, HTML, CSS

Frameworks and Backend: Spring Boot, Hibernate, JPA, JDBC, Servlets, JSP, REST APIs

Developer Tools: Eclipse, VS Code, MySQL Workbench, Git, GitHub, Maven, Apache Tomcat

Leadership / Extracurricular

Paper Presentation – NCASET 2025

Nov 2025

Dr Sri Sri Sri Shivakumar Mahaswamy College of Engineering, Bengaluru

VTU

- Presented the paper **“Decentralized Online Voting System”** at **NCASET 2025**, focusing on blockchain-based methods for secure electronic voting.
- Participated in technical discussions on emerging innovations in science, engineering, and technology during the conference.
